

Miara Sung

Seoul • miarasung.com • miarasung@gmail.com

PROFESSIONAL PROFILE

Miara Sung (they/them) is a philosopher, poet, and programmer. They are writing a monograph, *Madness and Consent*, a syncretic work that thinks with mathematical logic about flesh and sexual violence for a metaphysics that takes consent as the ground.

PUBLICATIONS AND WRITING

Philosophy and Theory

- *Madness and Consent*. Manuscript in progress, expected 2026.
- “Acceleration and Time.” Centre for Experimental Ontology, 2021.
- “Parasite Is the First Sexual Critique of Capitalism.” Tropics of Meta, 2020.
- “How to Solve Moral Conundrums with Computability Theory.” arXiv preprint, 2018.

Poetry

- “I think I was supposed to die,” *Abolishing Capitalist Totality: What Is to Be Done under Real Subsumption?*, Minor Compositions, 2026.

Public Writing

- “Destroy Chancellor’s Mansion, Not People’s Park.” The Daily Cal, 2021.
- “Software Engineers Must Think Deeply About Ethics.” The Daily Cal, 2017.

PROJECTS AND AWARDS

- *6180 the moon*, video game developed with the Korean indie studio Turtle Cream. Puzzle-platformer structured around a recursive loop connecting the top and bottom of the screen. The project explores recursion not as stultification, but as a liberating and unbounded feeling. Best indie game at Tokyo Game Show 2014. Selection at Experimental Gameplay Workshop at the Game Developers Conference 2013, IndieCade 2013, A MAZE Johannesburg 2016, BitSummit 2016.

PROFESSIONAL EXPERIENCE

Programmer

Oct 2025 – current

Mimbres School for the Humanities — Remote

Programming the website and chat app for Mimbres School, an international community of cross-disciplinary scholars.

CTO

Mar 2024 – Aug 2025

Stella& — Seoul

Research and development on AI literature translation. Agentic AI, RAG, neural embeddings.

Founder

Jun 2020 – May 2021

Pure Differentiation — Berkeley / New York City

Blockchain and cryptocurrency research. Social currency research.

Software Engineer

May 2018 – Aug 2020

Microsoft — Greater Seattle Area

Engineered natural language processing systems, precursor to Copilot. Neural embeddings for translation.

TEACHING

Tutor

Jun 2026 – present

Private Academy — Seoul

Teaching philosophy and English literature for young students.

Founder

2017 – 2021

*Philosophy of Computation at Berkeley***Instructor**

Fall 2017 – Spring 2018

University of California, Berkeley

Instructor for The Poetry of Computer Science, the Computer Science of Poetry: Philosophy of Computation. Author of a textbook developed for the course under the same name.

Teaching Assistant

Spring 2016 – Spring 2018

University of California, Berkeley

Teaching assistant for The Structure and Interpretation of Computer Programs. Recursion theory, interpreter design, program analysis.

LECTURES, READINGS, AND PERFORMANCES

- Lecture on racism in AI. University of Washington, 2019.
- Poetry performance and reading, Seattle Lit Crawl 2019, with Emmanuelle Pierrot.
- Poetry performance and reading, Seattle Lit Crawl 2018, with Shankar Narayan, hosted by Gabrielle Bates.
- Poetry performance and reading, Oakland EM Wolfman, with Emmanuelle Pierrot, 2019.

ACADEMIC AND INSTITUTIONAL ACTIVITY

- Student Worker Representative, UAW 2865, 2016–2018.

EDUCATION

- Mimbres School for the Humanities — Student and contributor. 2025 – Present.
- Hankuk University of Foreign Studies — M.A. in English Translation and Interpretation. 2024, on leave.
- University of California, Berkeley — B.A. in Computer Science. Equivalent coursework in poetry, philosophy, and linguistics. 2014–2023. (On leave, 2018–2022, working at Microsoft and Pure Differentiation.)
- University of West Georgia — Coursework in poetry. 2012–2014.
